

# Filling out a Score Sheet

1. Fill in the FINAL score
2. Fill in the "Won By"
3. Ask the umpires to sign the forms
4. The umpires can then leave and go to their games

The scorers from both teams should fill in the rest of the sheet together.

5. Place a ✓ in the "Played" column next to the name of players that took the diamond TODAY.
6. Put the **FULL name of any newly registered players** in the section below and cross out the "Playing up" section
7. Put the **FULL name of any players "playing up"** and cross out the "New Registration"
8. Fill in any K2's and Home Runs – both scorers should agree on these figures
9. Fill in the PROGRESSIVE Score. 1<sup>st</sup> base team is listed first.
10. If there are errors in the players name, players that are not in your team etc put a few words on the sheet that makes it very obvious what is happening. Abbreviations can be misinterpreted ( and your abbreviations may not make sense to me)
11. Both scorers sign the form
12. Winning team should return the sheet

Score sheets filled out incorrectly just mean someone has to spend more time chasing up the corrections – and all of us have far better things to do. *To encourage you to get it right we warn you the first time there is a mistake, you donate to the Cancer Council for any more.*

Check the competition table on the notice board regularly – if you find a mistake drop a note explaining the problem in with the result sheet. Please don't wait until the end of the season. Thanks
