

Manly Warringah Softball Association (MWSA) teams usually aim to stay at the same venue. MWSA recommends parents book their accommodation at the following places to keep as many players together.

In order to maximize accommodation options and keep costs down, we strongly recommend that you arrange to share with another family that you know or make a new friend from your team – That's holiday ☺

Back at the Motel

Meals:

Meals are each family's individual responsibility. Supermarkets, shops and restaurants are all located a short drive away. As people arrive back at the Motel after a long day of softball, the girls usually jump straight into the pool. A refreshing afternoon drink is had by those hardworking parents and everyone gets a chance to get to know each other. Buying/bringing a few breakfast supplies to have in your room does help with the early starts each day.

Evening Activities:

The girls all love to swim and run about in the afternoon/evening after a long day focusing on their softball. It's important for all of us to have some "wind-down" time, BUT, the days are very busy and the morning starts are usually early, so please, make sure your child is in bed by the time nominated by your coach.
